Task 1: Daily cases

Data wrangling

```r
reported <- reported_raw %>%
  mutate_if(is.numeric,
  replace_na, replace = 0) %>%
  mutate(reported_date = date(reported_date)) %>%
  pivot_longer(-c(reported_date), names_to = 'type', values_to = 'count') %>%
  mutate(type = str_to_sentence(type)) %>%
  mutate(type = fct_relevel(type, 'Active', 'Recovered', after=0))
```
